TECHNICAL DATA SHEET

BioShield Quat Guard Spray

Water Based Surface Sanitiser

- Tested Against Envelope Viruses
- Kills 99.9% of Bacteria • Water Based Disinfectant
- High Coverage • Self Contained System
- Light, Mist Spray

DESCRIPTION:

Quats (Quaternary Ammonium Compounds) are powerful disinfectant compounds that are commonly used in disinfectant products. Bioshield Quat Guard is a water-based surface sanitiser that uses specialised Quat Salt Technology to act as a disinfectant with less hazards than traditional alcohol-based sanitisers. The spray covers large areas quickly and the water based nature reduces the chances of incompatibility between the sanitiser and the surface compared to alcohol based products.

BioShield Quat Guard is compliant with the following standards:

EN1040 - Basic Bactericidal Activity of Chemical Disinfectants and Antiseptics

EN1276 - Chemical Bacterial Activity in Food/Industrial/Domestic.

EN13697 - Valuation of Bactericidal and/or Fungicidal Activity of Disinfectants used in Food, Industrial, Domestic and Institutional Areas

EN1650 - Chemical Fungal and Yeast in Food areas/Industrial/Domestic.

EN14476 - Chemical Disinfectants and Antiseptic: Virus in medical conditions.

TECHNICAL SPECIFICATION:

PROPERTY

Quat Guard

Base	Water
Available Sizes	750mL
Spray Type	Mist
Colour	Colourless
Odour	Light, pleasant fragrance

TECHNICAL DATA SHEET

DIRECTIONS FOR USE:

- USE IN A WELL VENTILATED AREA
- Quat Guard is suitable for a wide variety of surfaces but it is always advisable to test a small area prior to large scale application
- 1. Hold bottle 20-30cm away; perpendicular to the surface to be sprayed
- 2. Apply an even coating of sanitiser across the surface
- 3. Wipe the surface down to remove excess material. The product can be left to sit on the surface and will evaporate naturally on around 30 minutes (based on ambient temperatures and porosity of surface)
- 4. This product contains a percentage of water so should be used with caution on electrical items

STORAGE & SHELF LIFE:

Protect from extremes of temperature in a controlled environment between 5 and 25°C, and away from direct sunlight. Do not stand on a cold concrete floor. Stored under the correct conditions, in original, unopened containers, the product will have a shelf life of 12 months.

DO NOT ALLOW THE PRODUCT TO FREEZE

DISCLAIMER:
